

Installation guide

Note: Before starting the installation, make sure you have a Montaportal account with a connection to BigCommerce. If you do have a Montaportal account but don't have a connection to BigCommerce, go to connect > available > BigCommerce (For more information contact servicedesk@monta.nl):

The screenshot shows the Montaportal user interface in a test environment. The top navigation bar includes the Montaportal logo, a 'Testomgeving' label, and a menu with items like Home, Invoices, Address book, Settings, Connect 6, RMA portals, Notifications, Updates 2, Account settings, Store, and Referral. Below the navigation bar, there are tabs for 'Installed', 'Installing', and 'Available'. The main content area is titled 'Select a channel to create a new connection with.' and displays a grid of 15 e-commerce channel logos for selection:

- Monta REST API
- bol.com
- Amazon
- lightspeed Ecommerce
- channelengine
- fonQ
- shopify
- WOO COMMERCE
- Magento 2
- exact Online
- shopware
- B.P. BRICO PRIVE
- CCV Shop
- PrestaShop
- B
